Civic Propoganda

Two years ago the Municipality inaugurated the Civic propoganda with a view to educate the people in matters of health, their civic responsibilities etc , But as a propogandist has not been appointed since, the scheme has not been broughtinto being A motor van has been equipped with the necessary material like loud speakers, etc , for this purpose But the van has not been made use of

A sum of Rs 1,500/- is being provided under this Head in the Health Budget but the money is not being utilised It is hoped that the campaign will be taken up in earnest at least this year Unless two propogandists are appointed it is not possible to carry on effectively the scheme Two graduates well versed in Kanarese mainly and conversant with ~~to~~ other languages would be necessary

An attractive pay has to be offered if the services of capable, efficient and learned persons are to be secured I therefore propose a pay of Rs 50/- plus Rs 5/- p m for each Some of the very important subjects to be dealt with by the propogandists are as follows

1 Payment of Municipal Taxes on or before the due date

2 Apprising the health authorities of the occurrance of several infections diseases in the localities

3 Mode of spread of the diseases

4 The various preventive measures adopted to control the spread of diseases and the co-operation necessary for effectively enforcing the above measures

5 Maternity and child welfare

6 That people should not throw rubbish or garbage anywhere and everywhere excepting in the dust bins provided for

7. That children should not be allowed to foul the drains, foot-paths and streets

8 That people should not dig pits as water collects in them and will become sources of mosquito breeding etc ,

9 That people should not waste water etc

Pamphlets with suitable illustrations on various subjects should be got printed in all languages and distributed among people
